Embrace the thrill of discovery

Knowing what you love is the first rule of enjoying wine. But, just like music, I find that it's easy to fall back on the same familiar playlists, replayed time and again. These wines are our invitation to rediscover your sense of curiosity, BUT without losing sight of what you already enjoy!

We begin with Members' Favourites, the greatest hits our members return to again and again. Then we invite you to Stick or Twist, with beloved, classic intro tracks that are used to guide you towards new discoveries, without straying too far from your preferred genre. Finally, our Buyers' Picks feature two wines from each buyer - a standout tune from their own collection, plus a favourite from a fellow buyer's playlist.

Honestly not the wine we thought would come out on top here, but its storming performance in the tasting showed it to be a horizon-broadening red well worth your attention. Cabernet franc is one of Bordeaux's key blending grapes, but takes more of a lead role in the Loire.
